

## DECK X MARINE

### 36 Month Limited Warranty

#### **WHAT DOES THIS LIMITED WARRANTY COVER:**

DECK X MARINE, LLC warrants to the Buyer (original first purchaser) that the Covered Products are free from defects in materials and workmanship at the time of manufacture and for a period of 36 months from the date the Covered Products are shipped or installed by DECK X MARINE, LLC.

#### **WHAT DOES THIS LIMITED WARRANTY NOT COVER:**

The warranty does not cover the installation of the product onto any surface, nor does it cover adhesion of the product to the boat or to any other surfaces to which the Covered Products are applied. The warranty excludes any damage, deformation or discoloration occurring from a lack of proper care, wear and tear, or by light amplification. The warranty is void if the product is exposed to temperatures in excess of 175 degrees Fahrenheit, which can occur as a result of light amplification. (See attached "What is Light Amplification").

Some fading or discoloration of the Covered Products may occur with time and use in the outdoor environment; any such fading and/or discoloration is not covered by the limited warranty. The warranty covers only excessive fading or polymer degradation resulting from defective materials or workmanship.

The pressure sensitive adhesive (PSA) cannot be warranted due to outside factors that are beyond our control or may be present during time of installation.

The warranty does not cover (a) product not properly maintained with regular cleaning and reasonable storage and coverage (b) modifications to the product (c) unauthorized repair of this product.

#### **DECK X MARINE'S RESPONSIBILITY:**

Covered Products determined by DECK X MARINE to have material or workmanship defects will be covered as follows: Products deemed by DECK X MARINE to be defective within 36 months of shipment or factory installation will be replaced with as close to original product as possible or a refund for the defective product will be issued if no replacement is able to be provided.

#### **LIMITATION OF LIABILITY:**

DECK X MARINE shall not be responsible for any incidental or consequential damages. DECK X MARINE'S total liability under this warranty shall not exceed the original cost of the covered product. This warranty shall not be assigned or transferred by the Buyer without the prior written approval of DECK X MARINE.

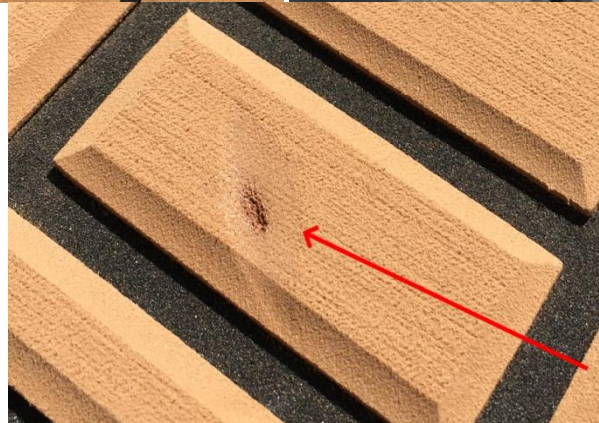

### What is Light Amplification?

Sunlight can reflect and be magnified/ amplified off certain areas such as gel coat, stainless hardware/ surfaces, glass and other highly reflective zones to damage or “burn” the decking material. Certain areas of a boat can have vertical planes or concave surfaces such as cockpit areas or other areas that have adjoining gel-coat or reflective hardware or glass that can reflect or “amplify” the sun’s light causing heat in **excess of 175 degrees Fahrenheit**. Light Amplification can happen anywhere in your boat and is **NOT** covered by our warranty.

It is recommended to not store inflatable toys, floats or clear water bottles on the product while exposed to direct sunlight as this can also cause Light Amplification damage. Decking should be kept away from reflective surfaces or from under glass or other optically clear items. These objects can refract/reflect light, concentrating the sun’s light beams to a level which can be destructive to the decking.

Deck X Marine flooring is designed and engineered to be extremely durable in outdoor marine environments and is UV rated for temperatures up to 175 degrees F. When not in use it is recommended that your boat be stored with a cover, garaged or kept under roof out of direct sunlight. Keeping you bimini top up will also help keep temperatures at lower levels. The material will last longer and have reduced color fade if stored out of the elements. Choosing a “lighter” color of decking will also help reduce the effects of the sun and lower surface temperatures.

### Light Amplification examples:

I have read the warranty and agree with its terms. I have been informed about Light Amplification and all related documents.
